Professional Summary

Results-driven **Software Developer specializing in Flutter Development** with 2.3+ years of experience building and de-ploying **cross-platform mobile applications** for Android and iOS. Delivered **3+ production-ready apps** across domains like **education, safety, travel, e-commerce, and healthcare**. Skilled in **scalable architectures, clean code practices, Agile methodologies**, and integrating **real-time communication features**. Successfully deployed apps to the **Google Play Store** and delivered multiple client-approved **UAT builds**. Achieved measurable improvements, including reducing **app crash rates by 20%+** and cutting feature delivery timelines by **30%**.

Skills

Programming Languages: Dart, Swift (basic level for iOS integration), JavaScript (Node.js)
Frameworks & State Management: Flutter, GetX, BLoC
Mobile Platforms: Android, iOS, Cross-platform Mobile Development
APIs & Databases: RESTful APIs, Firebase, MongoDB
Cloud & SDKs: Agora, ZegoCloud, Google Maps SDK, Firebase Cloud Messaging
Payments: Stripe, Razorpay
Architecture & Methodologies: Clean Architecture, MVC, MVVM, Agile, Scrum
Tools & DevOps: Git/GitHub, Postman, Flutter DevTools, Xcode IDE, CI/CD (GitHub Actions, Fastlane)

Work Experience

Inobeta Solutions Pvt. Ltd., Bangalore May 2024 – Present
Software Developer

Key Achievements:

- Designed, developed, and deployed **3+ production-ready apps**, including **ShePower** (live on Play Store).
- Reduced app **crash rates by 20%** through lifecycle optimization and rigorous debugging.
- Implemented modular architectures, reducing feature development time by **30%**.
- Built and optimized **real-time video/audio calling features** with Agora and ZegoCloud, ensuring stability under high concurrency.

Responsibilities:

- Specialized in **Flutter app development**, delivering cross-platform mobile solutions for Android and iOS.
- Integrated **Agora** and **ZegoCloud SDKs** for high-quality real-time communication.
- Developed **Google Maps SDK** features: geolocation, marker clustering, and navigation.
- Implemented state persistence and lifecycle handling, reducing **session drops by 25%**.
- Conducted **API testing/debugging** with Postman, ensuring 99%+ API reliability.
- Worked in **Agile/Scrum teams**, participating in sprint planning, daily stand-ups, and retrospectives.
- Championed clean coding practices, enforcing **SOLID principles**.

Projects

- **ShePower (Play Store):** A women's safety app providing SOS alerts, real-time location tracking, and community-based emergency support. Enables users to alert guardians or nearby volunteers instantly, ensuring fast response during emergencies.
- **Recess (UAT):** An EdTech platform enabling students to attend live tutor sessions, book classes using wallet/subscription, and access AI-based virtual tutors when human tutors are unavailable. Built with real-time video sessions and role-based scheduling.
- **Gold Point(UAT):** Cross-platform Gold Investment mobile application using Flutter (Dart) by integrating REST APIs for secure digital gold buying, selling, real-time gold price updates, transaction management, payment processing, and portfolio tracking, delivering a seamless and reliable investment experience.

Education

Bachelor of Engineering 2019-2022
Ballari Institute of Technology and Management, Ballari
